CLASS MAMMALIA – MAMMALS

MAMMALIAN TRAITS – Shared characteristics 6

MAMMALIAN THEMES SYNTHESIS ADONIS 2022 7

ESSENTIAL THEMES OF MAMMALS 8

1. ARTIODACTYLA – Even-Toed Ungulates 11

Biological profile. Cooperative care for offspring. Maternal attachment. Comfort or flight zone – safety bubble.

Milk – World milk production. Milk consumption. Different milks. Milk constituents. Lactose. Drinking milk. Allergies. Effects. Diabetes. 15

Mass movements – Stamping. Rushing crowds mad with fright. Nothing but annihilation, absolute & complete. Like a moving wall. Collective purposeful performance. Advantages & disadvantages of collectivism. Preventing inbreeding. 23

Artiodactyla in Homeopathy – 5 families: Bovidae; Camelidae; Cervidae; Giraffidae; Suidae 28

1a. ARTIODACTYLA – BOVIDAE 30

Biological profile. Subfamilies. Antelopes. Hiding or following. Gregarious or solitary. Mutualistic relationships. Fighting or fleeing. Communication.

Bovidae – Words & ways of wisdom & wonder 34

Bovidae in Rhyme & verse 37

Bovidae Cues & clues 38

Family Concept Bovinae & Caprinae 39
General Themes Bovinae & Caprinae 39
General Themes Antelopes 40

Bovidae in Homeopathy 41

Aepyceros melampus – Impala 41

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Social organisation & selection. Between ease & effort. Carried along on wafts of scent. MM [-].

Antidorcas marsupialis – Springbok 45

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Jumping & pronking. Joyful playfulness. Springboks – half-buck, half-bird [poem]. From playful innocence to destructive droves. Keep moving forward without changing direction [poem]. MM [-].

Bison bison – American bison 51

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Gathering & scattering of immense masses. Admirable regularity as if trained to keep step. Leaving a permanent trail. The buffalo trail [poem]. Belonging to the family. A monarch in his might [poem]. The last buffalo [poem]. Bison behaviour during handling. MM Lac bisonis [+].

Bos grunniens – Yak 60

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Husbandry. Forward always [poem]. Lazy comfort & motionless attitude. Collective vs individual response. Fighting until the very last gasp. MM [-].

Bos taurus – Domestic cow 65

Systematics. Domestic cow. Feral cattle. Body plan. Development & reproduction. Diet & feeding. Special senses – vision. Special senses – hearing. Special senses – smell. Social organisation. Creatures of habit. Slow & steady. Stress of separation. Stress of isolation. How to deal with cows. Special features. Falling in line. Deliberation & quietness. Strength of an ox. The importance of oxen [poem]. Fellowship broken up [poem]. Perfect picture of peacefulness & contentment. Ode to a cow [poem]. Symbolism. Sacrificial animal.

Bos taurus – Carbo animalis – Charred oxhide 75

Description. MM Carbo animalis [++]. Clinical cases – Good old times.

Bos taurus – Fel tauri – Ox gall 89

Description. Main constituents. Applications. MM [+]. Clinical observations.

Bos taurus – Milk 91

Composition milk. Milk poisoning.

Bos taurus – Lac vaccinum 93

Whole cow's milk. MM Lac vaccinum [+].

Bos taurus – Lac vaccinum butyricum 95

Buttermilk. MM Lac vaccinum butyricum [+].

Bos taurus – Lac vaccinum coagulatum 98

Milk curds. Medicinal. MM Lac vaccinum coagulatum [+].

Bos taurus – Lac vaccinum defloratum 98

Skim cow's milk. MM Lac defloratum [++]. Clinical case – Sick headache.

Clinical case – The one who provides, feeds. Clinical case – If alone, I will be deprived. Clinical case – Chronic fatigue syndrome.

Bos taurus – Lac vaccinum flos 110

Milk cream. MM Lac vaccinum flos [+].

Bubalus bubalis – Water buffalo 111

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Economic importance. Taking over. Scapegoat. Straining enormously or lounging around. The fine qualities of willingness & great strength. Diligent, gentle, loyal. To be of use [poem]. Fighting tigers. Worse by strangers, calming influence of children. MM Lac bubalis [+]. Clinical case – Asthma in a woman of 62. Clinical case – My family is everything to me.

Capra hircus – Domestic goat 126

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Barren land. Goat characteristics. Special behaviour. Composition milk. Miscellaneous. Detesting the commonplace. The goat and I [poem]. Reaching the top. Always jeering & nagging. MM Lac caprinum [++]. Basic themes. Lac caprinum mentality. Clinical case – Little Zac.

Connochaetes taurinus – Blue wildebeest 138

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Social organisation. Special features. Odd outliers. MM [-].

Oryx dammah – Scimitar-horned oryx 141

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Social organisation. Competition, aggression & dominance. Special features. MM [-].

Ovis aries – Sheep 144

Systematics. Distribution. Relationships. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Special senses – sight. Special senses – hearing. Special senses – smell. Composition milk. Frolicsome antics. Passively awaiting their fate. Sheep [poem]. Absolute need for protection. Hiding among the many. The true encounter [poem]. Downside of dependency. Hungry hordes. Of one goes, the others will

follow. Ability to trust & follow guidance. The desert flock [poem]. Under tutelary rule. Sheep without a shepherd. MM Lac ovinum [++]. Remedy overview. Proving mental themes include but are not limited to. Proving physical themes include but are not limited to. From clinical practice. Clinical case – I lift them up through my sacrifice. Clinical case – Constant need of approval & support.

Ovis aries – Lana ovis 165

Sheep wool. MM [++]. Themes of trituration.

Rupicapra rupicapra – Chamois 168

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Special senses. Heart & lungs. Playful capers. Changed & charged by fear. Admirable self-possession. Thrill of daring & danger. The chamois hunter [poem]. The mountains [poem]. MM Lac rupicaprinum [++]. Theme of family, group. Suggested scenarios for use.

Syncerus caffer – African buffalo 179

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Not in leisurely comfort. Ever ready to attack. MM [+]. Clinical case – Alopecia solved with an unusual remedy.

Taurotragus oryx – Eland 186

Systematics. Distribution. Body plan. Noble beauty. Development & reproduction. Mothering & bonding. Small stampedes. Diet & feeding. Behaviour. Social organisation. Playing. Special features. Behavioural problems of the eland in captivity. Capture myopathy. Quickly out of breath. MM [+].

1b. ARTIODACTYLA – CAMELIDAE 193

Biological profile. Old world camelids. Old world camelid crossbreeding. New world camelids. Hair & wool. Red blood cells. Blood glucose. Medicinal uses of camel milk. All work & no play. Enduring capacity for labour. Submissive & not easily provoked. Not even love can make it beautiful. The camel's temper. Surly, indignant & taking no heed. Routine-bound day-to-day sameness. Importance of respect. The camel's revenge. A camel's ear for music.

Camelidae – Words & ways of wisdom & wonder 206

Camelidae Cues & clues 211

Family concept Camelidae 211

Camelidae in Homeopathy 212

Camelus bactrianus – Bactrian camel, Two-humped camel 212

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. MM Lac camelinum [+]

Camelus dromedarius – Dromedary, One-humped camel 216

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Stripping the land bare. Behaviour. Gregoriously living together. Special features. Indiscriminate greediness. Uses. Overcoming insurmountable obstacles. The desert camel [poem]. Stoical endurance. The last great hope [poem]. Easily worked to death. The kneeling camel [poem]. Carrying or riding. Vociferous youngsters. Indifference to endearment & blandishment. Estimable but unlikeable. Hard to be civil. The dromedary [poem]. Affectionate & devoted. Milk. Autism. Patient report. MM Lac cameli dromedari [++].

Lama glama – Llama 233

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Humming, orgling & screaming. Natural guardians. Composition milk. MM Lac lama glama [++]. Clinical case – Excerpt from a case.

Vicugna pacos – Alpaca 241

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Humming, snorting & grumbling. MM [-]

1c. ARTIODACTYLA – CERVIDAE 243

Biological profile. Dominance & sexual segregation. In & out of group. Distressing days of despots. Hiding or following. Communication. Wallowing. Playing & feeling good. Activities affording great pleasure. Timid & quietly behaved. Deer as dangerous animals. Raising deer. Like a deer in the headlights. Captivated & held by an oppressive sway. Deer in culture & art. Easily injured. Tuberculosis. Chronic wasting disease.

Cervidae – Words & ways of wisdom & wonder 258

Deer in Rhyme & verse 259

Cervidae Cues & clues 262

Family concept Cervidae 263

Cervidae in Homeopathy 264

Alces alces – Moose 265

Systematics. Distribution. Body plan. Development & reproduction. Monogamous moose. Going out into the world to seek his fortune. Diet & feeding. No beauty contest winner but the smartest of all. Moose – lost remnant of some remoter times [poem]. Attacking when annoyed or harassed. Emboldened by great size & strength. Pushing with great determination. Impressive display of strength & power. Composed, untroubled, unperturbed. Accustomed to follow. Calling mom. Swift & noiseless escape. Looking for cover. MM [-].

Capreolus capreolus – Roe deer 275

Systematics. Distribution. Body plan. Selective Eaters. Social organisation. Monogamous. Delightful grace & elegance. Running in circles. Affectionate & protective mothers. MM [-].

Cervus brasilius – Pampas deer 280

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Social organisation. Special features. Touching noses. Aggression & submission. Overpowering smell. Standing motionless. MM Cervus brasilius [+].

Cervus elaphus – Red deer 284

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Special features. Social organisation. Running as the wind or keeping at bay. Mycobacterial diseases. Testosterone-fuelled aggression. A tyrant in his domestic circle. Pastime & privilege of royalty & nobility. Delight to behold his majestic presence. In his pride of height [poem]. In lordly mastership. Stately & royal [poem]. Lament of the stag royal [poem]. Maddened with one single passion. MM Cervus elaphus [++]. Clinical case – Collapse & constant crying.

Cervus elaphus – *Oleum animale aethereum* 299

Description. MM [++]. Clinical case – Urine with odour of fish brine.

Dama dama – Fallow deer 304

Systematics. Distribution. Body plan. Development & reproduction. Breeding period. Diet & feeding. Social organisation. Special features. Pleasant relaxation in carefree idleness. Exuberance of joy. Beautiful flocks of the mind [poem]. So much resembling poor human nature. MM Dama dama [++]. Clinical case – Multiple sclerosis.

Moschus moschiferus – Musk deer 318

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Social organisation. Behaviour. Special features. Communication. Excessively wary & tendency to hide. Musk. The musk is in the deer [poem]. Pheromones. Scent & perfume. Vulgar fragrance. Medicinal effects of musk. Humming, orgling & screaming. Natural guardians. Composition milk. MM Moschus moschiferus [++]. Clinical observations: Seeing someone else on looking in a mirror. Climbing up, looking down. Clinical case – Trembling anxiety. Clinical case – PMS & panic. Clinical case – Headache & hay fever.

Odocoileus virginianus – White-tailed deer 339

Systematics. Distribution. Retaining the same ranges, travelling the same routes. Body plan. Development & reproduction. Social organisation. Diet & feeding. Behaviour. Special features. Special senses. The highest perfection of grace. Never overcoming its natural wildness. The only one. MM Odocoileus virginianus [++]. Enwrapped in family matters. Making & breaking of bonds. Risks of beauty.

Rangifer tarandus – Reindeer 349

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Domestication. Antlered ranking. Adhering to the masters' bidding. Doing well thy needful part [poem]. Always on the move. Following in each other's tracks. Clicking knees. MM [+].

1d. ARTIODACTYLA – GIRAFFIDAE 356

Biological profile.

Family concept Giraffidae 357

Giraffidae in Homeopathy 358

Giraffa camelopardalis – Northern giraffe 359

Systematics. Distribution. Body plan. Development & reproduction. Maternal care. Diet & feeding. Behaviour. Special features. Communication. A veritable oddity. Machinery in motion. All lightness, elegance & grace [poem]. Acute mortality syndrome. MM [-].

1e. ARTIODACTYLA – SUIDAE 363

Biological profile. Extremely vocal. Dictionary meanings of the word 'pig'.

Suidae – Words & ways of wisdom & wonder 367

Suidae Cues & clues 370

Family concept Suidae 371

Suidae in Homeopathy 372

Phacochoerus africanus – Warthog 373

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Social organisation. Special features. MM [-].

Sus domesticus – Domestic pig 375

Systematics. Distribution. Body plan. The vast changes of domestication. Cold-blooded, mercenary attitude towards the pig. Returning to their wild roots. Development & reproduction. Infanticide. Diet & feeding. Obesity & self-indulgence. Overcoming exploitation. Opulent obesity & blooming plumpness. Close social bonds & bodily contact. Special features. Sweet tooth. Inquisitive & optimistic. Bored to death. Poor man's piggy bank. Gross natures in useful employment. Prayer of the swine to Circe [poem]. Stress & gastrointestinal distress. Weaning & disruption of the mother-young bond. Respiratory pathogens. Chlamydia. Proteins. MM Lac suis / *Sus domesticus* [++].

Suid similarities with humans – Sus for sustenance & substitution 396

Specific examples. Homeopathy.

Sus domesticus – *Adeps suis* – Swine fat. MM [+] 399

Sus domesticus – *Arteria suis* – Pig artery. MM [++] 400
Sus domesticus – *Cartilago suis* – Pig cartilage. MM [++] 401
Sus domesticus – *Cerebrum suis* – Pig brain. MM [+] 403
Sus domesticus – *Discus intervertebralis suis* – Pig intervertebral disc. MM [++] 405
Sus domesticus – *Embryo suis* – Pig embryo. MM [++] 405
Sus domesticus – *Funiculus umbilicalis suis* – Pig umbilical cord. MM [++] 407
Sus domesticus – *Glandula suprarenalis suis* – Pig adrenal gland. MM [++] 409
Sus domesticus – *Hepar suis* – Pig liver. MM [++] 410
Sus domesticus – *Hypophysis suis* – Pig pituitary gland. MM [++] 412
Sus domesticus – *Hypothalamus suis* – Pig hypothalamus. MM [++] 413
Sus domesticus – *Medulla ossis suis* – Pig bone marrow. MM [++] 413
Sus domesticus – *Mucosa nasalis suis* – Pig nasal mucous membrane. MM [++] 414
Sus domesticus – *Mucosa suis* – Pig mucosal tissues. MM [++] 415
Sus domesticus – *Pancreas suis* – Pig pancreas. MM [++] 416
Sus domesticus – *Placenta suis* – Pig placenta. MM [++] 417
Sus domesticus – *Tuba uterina suis* – Pig fallopian tube. MM [++] 419
Sus domesticus – *Uterus suis* – Pig uterus. MM [++] 421
Sus domesticus – *Vena suis* – Pig vein. MM [++] 421

Sus scrofa – Wild pig 423

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Social organisation. Special features. Sturdy, sulky, resolute. Full sense of own importance. Strange blending of characteristics. No backing away. Charging down. Rudeness unsoftened by tenderness. Immoderate indulgence of appetite. Allurement of bad example. Adopting orphans. Never complaining. Behaviour rigidly adhered to. Disease vectors & amplifiers. MM Lac suinum scrofinum [+].

2. PERISSODACTYLA – Odd-Toed Ungulates 431

Biological profile. Genus Equus. Communication & perception. Equid hybrids. Honourable horse vs disreputable donkey.

Equidae – Words & ways of wisdom & wonder 436

Equidae Cues & clues 438

Family concept *Equidae* 439

Perissodactyla in Homeopathy 439

Equus asinus – Donkey 439

Systematics. Distribution. Body plan. Development & reproduction. Milk. Diet & feeding. Behaviour. Scorning the servile rein [poem]. Social organisation. Special features. Mental characteristics. Satisfied with past honours. Bad treatment & its effects. The donkey's petition [poem]. Pitiably air of hopeless despondency. Though undeserved, a bad name adheres. Easy subjection. The man's a donkey [poem]. Stoic & hard-to-read. Symbolism. The donkey [poem]. MM Lac asinum [++]. Clinical case – Overburdened.

Equus caballus – Domestic horse 455

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Special features. Enduring long-continued shocks & jolts. Horsepower. Impact on human society. Sudden fright & flight. Social organisation. Hierarchical ranking. Capacity as the title to leadership. Leadership over dominance. Confident leadership & trusting relationships. Fatal faithfulness. Walking with the spirit of heroes [poem]. Unflinching & faithful service. Willing partners. Consistent with the laws of his nature. His proud neck must bend [poem]. Four temperaments. Hippotherapy. Noble thought & noble deed [poem]. Breaking the bonds that fettered the mind [poem]. Milk. Symbolism. The horse [poem]. The grumbling horse [poem]. Exploited & discarded [poem]. MM Lac equinum [++]. Clinical cases – Desire to be of service [3 cases]. Clinical case – I just want to run. Clinical case – Don't tell me what to do. Clinical case – Swearing at trifles. Clinical case – Being the top. MM Urina equina [++]. Key symptoms. Clinical cases – Four brief cases.

Equus caballus – Castor equi 494

Description. MM [++].

Equus caballus – Hippomanes 497

Description. Horse madness. Chemical composition. MM [++]. Clinical case – Constipation.

Equus ferus caballus – Nemiah Valley wild horse 504

Systematics. Distribution. MM [++]. Comparison with Lac equinum, the domesticated horse.

Tapirus terrestris – South American tapir 508

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Taming the tapir. Onto the beaten path. MM [-].

CARNIVORA – Flesh-Eaters 511

Biological profile.

3. CARNIVORA – CANIFORMIA – Dog-Like Carnivores 512

Biological profile.

Caniform / Dog-like Carnivora in Homeopathy – 4 families: Canidae; Musteloidea; Pinnipedia; Ursidae 513

3a. CARNIVORA – CANIFORMIA – CANIDAE 514

Biological profile. Olfactory communication. Breeding & parental care. Lasting loyalty – pair bonding. The great success of canids. Disease susceptibility. Canine distemper. Envy.

Canidae – Words & ways of wisdom & wonder 520

Canidae Cues & clues 523

Main themes Canidae 524

Family concept Canidae 524

Canidae in Homeopathy 526

Canis familiaris – Domestic dog 526

Systematics. Distribution. Body plan. Fancy breeds. Characteristics. Special features. Faithfully attached. The faithful dog [poem]. Dogging his steps [poem]. Kindness remembered. Part of the family. Welcome home [poem]. Best friend. Woman's loved companion, man's friend. Four feet [poem]. Helpless without the dog. Safety & protection. Ambiguity. Despised & disdained. Dog-people. Lost dog [poem]. A portrait of inferiority & corruption. Metaphor of contempt. Lone dog [poem]. Unsatisfied yearning [poem]. MM Lac caninum [+++]. Themes of Lac caninum. Clinical cases – Lack of self-esteem [5 cases].

Canis familiaris – Lyssinum 547

Fatal madness of rabies. Wild madness. Mad dogs. Aimless wandering. Torn between antagonistic impulses. Judas kiss & perfidious caresses. Fatal madness. Antagonistic periods of excitement & quiet. An elegy on the death of a mad dog [poem]. MM [++]. Hering's experience. Themes Lyssinum. Clinical cases – Excerpts from 2 Lyssinum cases.

Canis latrans – Coyote 560

Systematics. Distribution. Body plan. Development & reproduction. Social organisation. Remarkable social flexibility. Vagabond outcast in grey [poem]. Beset by soundless ghosts. All in the coyote family. Maligning stereotypes. Seldom seen but frequently heard. Howling, yipping & yapping. The coyote's song [poem]. Trickster, hero & antihero. Cartoon. MM Lac canis latrans [+]. Clinical case – Threatening & aggressive behaviour. Clinical case – Family problems.

Canis lupus – Grey wolf 573

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Social organisation. Lone wolf – going solo. The lone wolf [poem]. Abyssmal loneliness [poem]. Special features. Composition milk. Symbolism. The wolf [poem]. Profitable panic mongering. They came hard upon our back [poem]. Dreadful adjunct of all scenes of dismal horror. MM Lac lupinum [++]. Themes Lac lupinum. Clinical cases – Excerpts from 3 Lac lupinum cases. Clinical case – The call of the wild.

Canis mesomelas – Black-backed jackal 593

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Overlooked or dismissed but deserving of respect. Social organisation. Lifelong couples. Nocturnal singing. Special features. Persecution. Trickster & spirit animal guide. Shrewdness & plesantry.

Desolation. Duplicity & secrecy. Impudence balked by stupidity. Freeloading scrounger [poems]. MM [+].

Vulpes vulpes – Red fox 601

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Social organisation. Special features. Power of counterfeiting. Deception, seduction, deliberation, consideration. Prudence vs imprudence. Holding its own. What goes around comes around. Reynard the fox. MM [++]. Themes *Vulpes vulpes*. MM Pulmo vulpes. Clinical case – Persistent condition of humid asthma.

3b. CARNIVORA – CANIFORMIA – MUSTELOIDEA 612

Biological profile.

Mephitidae – Undisputed self-assurance. Composure & fearlessness. 613

Mustelidae – Abominable company. Raptorial image. Warning off by showing off. Fierce & fearless. Perfectly organised killing machines. The weasel's courage. Impervious to stings. Fast & furious. Playful & lively – not a worry in the world. Playing to delight the heart when more serious work is not on hand. Dancing. Curiosity skills the mustelids. Caching. Propensity to hide & steal things. 614

Musteloidea – Words & ways of wisdom & wonder 631

Musteloidea Cues & clues 634

Family concept *Musteloidea* 635

Musteloidea in Homeopathy 637

Aonyx cinereus – Asian small-clawed otter 638

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Suggested personality type. Irresistible, communicative, unassuming & finicky. MM [+].

Gulo gulo – Wolverine 641

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Dealing with overwhelming odds. Best in the worst of conditions. Never seen but known by its works. Exceptional shrewdness & resoluteness. Too wise to be caught. MM [-].

Lutra lutra – Otter 647

Systematics. Distribution. Body plan. The otter's otherness [poem]. Development & reproduction. Diet & feeding. Amphibious monster with hostile jaws [poem]. Peering & prowling [poem]. Behaviour. Special features. Vocal communication. One with their watery environment. Lord of the stream [poem]. To the river otter [poem]. MM [+]. Clinical case – An unusual girl with allergies.

Martes foina – *Beech marten* 660

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Hiding in lonely shade [poem]. Special features. Preceding the house cat. Marten personality type. MM [-].

Meles meles – *Badger* 664

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special senses. Badgered by everyone. Formidable & fearless. Beating them all [poem]. Astonishing bite force. Comfortable doing nothing. Scrupulous cleanliness. [poem]. Solitary or social. Group living. Capable of domestication & affection. The badger as proving source. [MM [++]]. Clinical case – Meles meles.

Mellivora capensis – *Honey badger* 677

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Social organisation. Social interactions. Special features. Large home ranges. Great determination & placid resolution. Fearing nothing. Unscathed by any hand [poem]. Relationship with humans. MM [+].

Mephitis putorius – *Striped skunk* 683

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Hard to intimidate. Unassailable & impervious. Dignified indifference. The skunk [poem]. Blundering along. Imagined danger. Affectionate & friendly. Look before you leap. A spoiled evening dancing. Nastiness its own defence. Self-importance vs humility. Judged by the company you keep. Ode to the skunk [poem]. The lion & the skunk [poem]. MM [++]. Clinical cases – Excerpts from 3 Mephitis cases.

Mustela erminea – *Stoat* 702

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Immense benefit of untiring industry. Social organisation. Behaviour. Special features. Blind fury. The stoat [poem]. Excess of energy & urge to roam. The fur of royalty. One dignity delays for all [poem]. MM [+]. Clinical case – Severe acne & dyslexia.

Mustela putorius furo – *Ferret* 713

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Ferreting. Ferret patrol. Domestication. Bundles of energy. Dance of joy. Sleep. Special senses. Special features. MM [-].

Procyon lotor – *Raccoon* 718

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Prone to play merry tricks. Tactile finesse. No home. Deft thieves. Daft thieves. Sly thieves [poem]. Rampaging raccoons. Unrestrained curiosity. MM [++].

3c. CARNIVORA – CANIFORMIA – PINNIPEDIA 729

Biological profile. Designed for speed under water. Easing off on land but outstripping the speed of man. Designed to perform under pressure. Oxygen debt & lactic acid. Need for isolation. Always guarded. Communication. Special senses. Mating. Lactation. Mother-pup separation. Permanent adoption or temporary fostering. Maintaining distance & defending the young. Strife spreading from family to family. Male harassment. Risk factors. Seal's wedding – the love of frolic. Captivity & tamability.

Pinnipedia – Words & ways of wisdom & wonder 743

Pinnipedia Cues & clues 748

Family concept Pinnipedia 748

Pinnipedia in Homeopathy 749

Arctocephalus gazella – Antarctic fur seal 750

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Dominance hierarchy. Special features. MM [-].

Odobenus rosmarus – Walrus 752

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Singing suitors. Close contact & dominance. Family herds & male only herds. Mother's dangerous plight. Curiosity. Peaceful & harmless. Defending & supporting each other. Merman. Exploitation. MM [+].

Otaria flavescens – South American sea lion 761

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Social organisation. Pros & cons of mass birthing. Raids, abduction & mother-pup separation. Raiding other species. MM [-].

Phoca vitulina – Harbour seal 765

Systematics. Distribution. Body plan. Development & reproduction. Mother-child bond. Howling for mum. Milk composition. Diet & feeding. Behaviour. Special features. Scanning for danger. MM [+]. Clinical case – Heaviness on land, weightlessness in water. Clinical case – Helplessly alone in the snow, but safer in the water.

3d. CARNIVORA – CANIFORMIA – URSIDAE 777

Biological profile. Excellent sense of smell. Extended period of quiescence. Following one's nose. Disposition of bears. Amiable brute & droll barbarian. Evoking sympathy & caretaking behaviour. Comfort, consolation & kindness. If teddy bears ruled the world [poem]. Fictional bears. The bear as symbol. Sheer strength. Exploitation & abuse.

Ursidae – Words & ways of wisdom & wonder 791

Ursidae Cues & clues 793

Family concept Ursidae 793

Ursidae in Homeopathy 794

Ailuropoda melanoleuca – Giant panda 794

Systematics. Distribution. Body plan. Cute & cuddly. Development & reproduction. Considerable effort to bring up the young. Diet & feeding. Behaviour. Special features. Goodwill & soft power. MM [++]. Remedy overview.

Ursus americanus – American black bear 799

Systematics. Distribution. Body plan. Development & reproduction. Maternal care & authority. Diet & feeding. Behaviour. Special senses. Special features. Timid, shy, inoffensive. The happy-go-lucky, eternally good-natured merry-maker of the woods. MM [-].

Ursus arctos – Brown bear 803

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Vocalisations. Forester Kremenz. Playfulness. MM [++]. Clinical cases – Excerpts from 4 *Ursus arctos* cases. Clinical case – I protect my family no matter what. Clinical case – Experiencing the forest from the bear's perception.

Ursus arctos horribilis – Grizzly bear 819

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Comically powerful. Behaviour. Distance & space. Grand old magnificent monarch [poem]. Harmless, peaceful giant. Measure of valour. Strong as a bear. Clumsily strong. Tame with dog-like fidelity. MM [+].

Ursus maritimus – Polar bear 827

Systematics. Names for the polar bear. Distribution. Body plan. Development & reproduction. Complete dependence on mum. Diet & feeding. Behaviour. Special features. Extraordinary sense of smell. Napping when the going gets tough. Monarch of the frozen way [poem]. MM [-].

4. CARNIVORA – FELIFORMIA – Cat-Like Carnivores 833

Biological profile.

Feliform / Cat-like Carnivora in Homeopathy – 3 families: Felidae; Herpestidae; Hyaenidae 834

4a. CARNIVORA – FELIFORMIA – FELIDAE 834

Biological profile. *Common behavioural characteristics*: Self-living. Travelling. Dispersal. Social independence. Territorialism. Hiding. Tree climbing. Sunbathing. Affiliative ability. Human attack. Maternal connection. Female dependent.

Other characteristics: Roaring or purring. Relying on stealth & quick rushes. Predatory behaviour. Communication. Solitary vs communal lifestyles. Sociable, dominant, curious. All on equal footing. Unparalleled.

The cat's teachings. Cats & dogs. Concept *Lac felinum*. Main themes *Lac felinum*. MM *Lac felinum* [+++]. Clinical cases – Excerpts from 6 *Lac felinum* cases.

Felis sylvestris – Wildcat 904

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. MM [-].

Leopardus pardalis – Ocelot 905

Systematics. Distribution. Body plan. White leopards [poem]. Development & reproduction. Diet & feeding. Behaviour. Special features. Playful & powerful. Concept *Leopardus pardalis*. Ocelot traits in patients. MM [++]. Clinical case – Unengaged & drifting off in dream world.

Lynx canadensis – Canadian lynx 913

Systematics. Distribution. Body plan. Development & reproduction. Staying or going. Diet & feeding. Grouping behaviour. Behaviour. Social organisation. Keeper of secrets. MM [-].

Lynx rufus – Bobcat 916

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. MM [++]. Clinical case – Allergies & making the world her own.

Panthera leo – Lion 924

Systematics. Distribution. Body plan. Majestic manes. Development & reproduction. Tempered with gentleness. Short careers & tenures. Diet & feeding. The lonely lion [poem]. Social organisation. Family teamwork. Mandatory greeting ceremony. Special features. Energy conserving behaviour. Playfulness. Roaring the alarm. Anger manages everything badly. Majestic beauty & strength. Dazzled by his own power. Intended for big things. To a caged lion [poem]. All but majestic. Neither ferocious nor noble. Eager to avoid challenging confrontations. Half-willed, yet half-afraid [poem]. Failing & falling [poem]. The king of the forest can still be a cowardly lion. Courage or cowardice. Concept Lac leoninum. Keywords. MM Lac leoninum [+++]. Anger & violence. Clinical case – Overeating & sibling rivalry. Clinical case – Eczema & sibling rivalry. Clinical case – A king with a lot of power. Clinical case – Bereavement – losing a parent.

Panthera onca – Jaguar 952

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Bone-piercing bite. Behaviour. Special features. Very difficult to master. Movements of deadly quiet. When it's useless to call on reason. Respecting the jaguar's space. Lord & ruler of men. Concept Panthera onca. MM [++]. Clinical case – Uncooperative, annoyed & tough.

Panthera pardus – Leopard 966

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. A life in the trees. Ambushing & pouncing. Behaviour. Special features. Using all feline advantages. In every way qualified to achieve its goals. Skilful secrecy & stealth. No respect for mankind. Close encounters of the angry cat kind. Overwhelmed by sudden disaster. Mad cat. Concept Panthera pardus. MM [++]. Clinical case – Backache, cough & skin rash. Clinical case – Bellyache, aggressive outbursts & tics. Clinical case – Chronic scalp psoriasis & relationship stress.

Panthera tigris – Tiger 985

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Brutal, bestial beauty. The tigress' mark [poem]. Cowardly, though exceedingly cunning. Taking the greatest advantage & least risk. No pretending, posturing & grandstanding. The very symbol of physical beauty, strength & dignity. Audacity a means of success.

The lady or the tiger. Concept *Panthera tigris*. Keywords. MM [++]. Clinical case – Issues of power, leadership & responsibility.

Panthera tigris altaica – Siberian tiger 997

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. What makes the Amur tiger special? Royal mountain spirit. MM [++]. Clinical case – I have to be big and strong. MM [+].

Panthera uncia – Snow leopard 1002

Systematics. Distribution. The snow leopard [poem]. Body plan. Development & reproduction. Diet & feeding. Behaviour. Solitary, but not totally asocial. Special features. Concept *Panthera uncia*. MM [+].

Puma concolor – Cougar 1008

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Blood-curling caterwauling. A blend of opposites. Always young at heart with youthful spirits. Concept Lac puma. MM Lac puma concolor [+]. Clinical case – Bipolar disorder. Clinical case – Humanizing: from paralysis & civilised rage to proper power.

4b. CARNIVORA – FELIFORMIA – HERPESTIDAE 1022

Biological profile. Social organisation. Intergroup aggression in social mongooses. Worse from isolation or separation. Unconquerable inquisitiveness. Mycobacteriosis.

Herpestidae Cues & clues 1027

Family concept Herpestidae 1028

Herpestidae in Homeopathy

Atilax paludinosus – Marsh mongoose 1029

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Domination & submission. MM [-].

Mungos mungo – Banded mongoose 1030

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Eviction from the group. MM [-].

Suricata suricatta – Meerkat 1033

Systematics. Distribution. Body plan. Development & reproduction. Ability-related cooperative contribution. Pregnancy & rivalry. Allolactation. Despotism maintenance of in-group order. Avoiding control by undertaking out-group activities. Diet & feeding. Behaviour. Special features. MM [++]. Clinical case – Menstrual disorders.

Urva edwardsi – Indian grey mongoose 1042

Systematics. Distribution. Body plan. Development & reproduction. Diet & feeding. Behaviour. Special features. Run & find out. Fearless & friendly. MM [++].

4c. CARNIVORA – FELIFORMIA – HYAENIDAE 1046

Biological profile. Gregarious & sociable. Bone crushing jaws. Hunter & hunted. Reviled & despised [4 poems]. More force of nature than farce of nature. Ambivalent views. Fallible imperfect knowledge. Werehyenas.

Hyaenidae – Words & ways of wisdom & wonder 1053

CLASS MAMMALIA – MAMMALS

1. Artiodactyla – Even-toed Ungulates / Hoofed Animals 11

1a. Bovidae 30

- Aepyceros melampus* – Impala
- Antidorcas marsupialis* – Springbok
- Bison bison* [Lac bisonis] – American bison
- Bos grunniens* – Yak
- Bos taurus* – Cow
 - Carbo animals – charred oxhide
 - Fel tauri – ox gall
 - Lac vaccinum – whole cow's milk
 - Lac vaccinum butyricum – buttermilk
 - Lac vaccinum coagulatum – milk curds
 - Lac vaccinum defloratum – skim milk
 - Lac vaccinum flos – milk cream
- Bubalus bubalis* [Lac bubalis] – Water buffalo
- Capra hircus* [Lac caprinum] – Goat
- Connochaetes taurinus* – Blue wildebeest
- Oryx dammah* – Scimitar-horned oryx
- Ovis aries* [Lac ovinum] – Sheep
 - Lana ovis – sheep wool
- Rupicapra rupicapra* – Chamois
- Syncerus caffer* – African buffalo
- Taurotragus oryx* – Eland

1b. Camelidae 193

- Camelus bactrianus* [Lac camelinum] – Bactrian camel
- Camelus dromedarius* [Lac cameli dromedari] – Dromedary
- Lama glama* [Lac glama] – Llama
- Vicugna pacos* [Lac pacos] – Alpaca

1c. Cervidae 243

- Alces alces* [Lac alces] – Moose, elk
- Capreolus capreolus* – Roe deer
- Cervus brasiliensis* [Ozotoceros bezoarticus] – Pampas deer
- Cervus elaphus* – Red deer
 - Oleum animale – Hartshorn [red deer antler] oil
- Dama dama* – Fallow deer
- Moschus moschiferus* – Musk deer
